IDEATION PHASE

Brainstorm & Idea Prioritization

Idea listing and selection for the F1 Racing Analytics project

Date	31 January 2026	**Team ID**	
Project Name	F1 Racing Analytics	**Maximum Marks**	4 Marks

Step 1: Brainstorm and Idea Listing

Ideas are aligned with the current project scope. Individual team member names were not provided, so the contributor is listed as “Project team”.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Project team	Create one Tableau dashboard with headline KPIs and core analysis views.	Dashboard / visualisation	1
2	Project team	Add a driver points leaderboard with a Top N control.	Interactive filtering	2
3	Project team	Compare team championship performance by season.	Team performance	3
4	Project team	Include tyre compound, podium, DNF-reason and country-participation views.	Race insights	4
5	Project team	Build a responsive website with Home, Overview, Dashboard and Story navigation.	Web integration	5
6	Project team	Improve readability with consistent titles, chart sizing, legends and tooltips.	Usability / reliability	6

Step 2: Idea Prioritization

Feasibility and importance are project-team estimates, not measured results.

Group No.	Final Idea	Feasibility	Importance	Priority	Selected
1	Consolidated interactive Tableau dashboard	High	High	1 — Highest	Yes
2	Driver leaderboard with Top N filter and story	High	High	2 — High	Yes
3	Team championship analysis by season	High	High	3 — High	Yes
4	Tyre, podium, DNF and country analysis	High	High	4 — High	Yes
5	Responsive website integrating dashboard and story	Medium	High	5 — High	Yes
6	Polish loading, sizing and visual consistency	Medium	High	6 — High	Yes

Selected direction: Deliver an easy-to-navigate F1 analytics website with a consolidated interactive dashboard and a focused driver leaderboard story. Prioritise clarity, responsive sizing and reliable embed loading so users can explore the data without visual overlap.
