Demonstration of Proposed Features

Date	15 March 2026
Team ID	
Project Name	F1 Racing Analytics
Maximum Marks	1 Mark

Demonstration of Proposed Features:
This checklist maps the main features visible in the F1 Racing Analytics project. Status is based on the project details and screenshots shared; the live interaction of published embeds should be rechecked before marking a feature as fully demonstrated.

Feature Checklist

S.No	Feature Name	Description	Status	Demonstrated (Yes/No)	Remarks
1	KPI overview cards	Summarise teams, seasons, race outcomes and circuits.	Implemented	Yes — visible in dashboard	Four KPI cards shown in the dashboard.
2	Driver leaderboard	Compare drivers by points; Top N control changes the displayed list.	Implemented	Yes — story created	Verify the parameter responds on the published story.
3	Team performance ranking	Compare total points across teams.	Implemented	Yes — visible in dashboard	Team ranking chart created.
4	Team championship analysis	Compare team points across seasons.	Implemented	Yes — visible in dashboard	Grouped team/season bar chart.
5	Tyre and podium analysis	Show tyre compound patterns and podium counts by driver.	Implemented	Yes — visible in dashboard	Tyre compound chart and podium bubble chart.
6	Geographic and reliability views	Show country participation and DNF reasons.	Implemented	Yes — visible in dashboard	Map and DNF reason bar chart created.

Feature Implementation Summary

Metric	Value
Total Features Proposed	6 feature groups
Total Features Implemented	6 (based on shared screenshots/project description)
Total Features Demonstrated	6 views are shown in the shared dashboard/story screenshots; live interactivity should be revalidated.
Overall Implementation Rate (%)	100% based on the six listed groups; this is a documentation estimate, not an independently audited test result.
